SUMMARY

Results-driven Software Engineer with 5+ years of experience in developing, testing, and deploying scalable web applications. Proven ability to optimize application performance, leading to significant improvements in user engagement and system efficiency.

EXPERIENCE

Senior Software Engineer | Innovatech Solutions, Pune, India | 2021 - Present

- Architected and deployed a new microservices-based backend for the company's flagship product, resulting in a 40% reduction in server response time and supporting a 200% increase in user traffic.
- Led a team of 3 junior developers, mentoring them on best practices for code quality and agile development, which increased team productivity by 25%.
- Integrated a new payment gateway API (Stripe), reducing transaction errors by 15% and improving the checkout conversion rate.

Software Engineer | Data Systems Inc., Mumbai, India | 2018 - 2021

- Developed and maintained front-end components using React, improving user interaction scores by 30%.
- Refactored a legacy codebase to modern standards, which decreased bug reports by 50% in the first quarter after deployment.
- Wrote unit and integration tests that increased code coverage from 60% to 92%.

EDUCATION

Bachelor of Engineering, Computer Science | Pune Institute of Computer Technology | 2014 - 2018
